

# Optimise Graduate Recruitment With Uncapped Assessments

Harness the power of technology to assess every single graduate applicant first.

Save time and improve quality by supporting your recruitment process with consistent, objective and accurate data, including competency profile match scores, detailed reports and structured competency interviews.

## The ROI of Unlimited Graduate Recruitment

90%

Assess everyone

Time saving by using data first

1-∞

0.74

Correlation between Agility & performance

Retain top talent by measuring fit

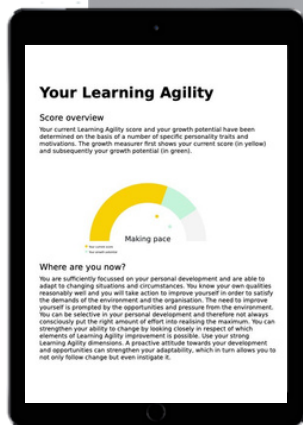

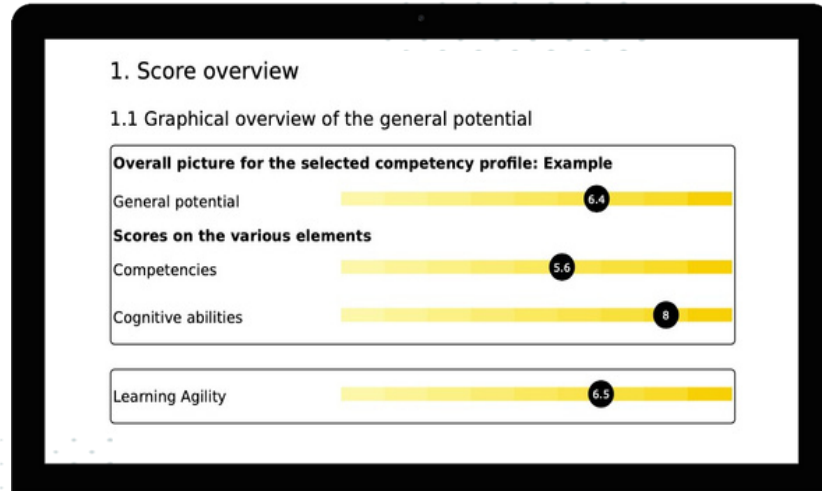

1.7x

Stop hiring toxic employees

# Fixed-cost Graduate Solutions

Hire better talent with Lumenii's fixed-cost volume selection solution

## Learning Agility

Agility is the strongest predictor of job performance. Measuring Agility helps you to understand what you can expect from graduates in the future.

## Cognitive Ability

Cognitive ability provides an objective measure of graduates' problem solving and reasoning ability across verbal and numerical domains.

## Competency Role Fit

Understand how personality and behavioural aligns with the competencies required to be successful in the role

## Motivations and Drivers

Align graduates' motivators and role preferences with the needs, culture and values of the organisation.

**Chat with one of our experts  
about how to:**
